DOMINION ORDERS IN COUNCIL.

[154]

AT THE GOVERNMENT HOUSE AT OTTAWA

Monday, the 19th day of January, 1914.

PRESENT:

HIS ROYAL HIGHNESS THE GOVERNOR-GENERAL IN COUNCIL.

HIS Royal Highness the Governor-General in Council is pleased to order that the regulations governing the disposal of petroleum and natural-gas rights, the property of the Crown, in Manitoba, Saskatchewan, Alberta, and the North-West Territories, the Yukon Territory, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half ($3\frac{1}{2}$) million acres of land acquired by the Dominion Government from the Province of British Columbia, and referred to in subsection (b) of section 3 of the "Dominion Lands Act," approved by Order in Council dated the 11th day of March, 1910, and amended and re-established by Orders in Council dated the 10th day of March, 1911, the 12th day of August, 1911, and the 16th day of October, 1913, shall be and the same are hereby rescinded and the annexed regulations substituted therefor.

RODOLPHE BOUDREAU.

Clerk of the Privy Council.

REGULATIONS for the disposal of petroleum and natural-gas rights, the property of the Crown, in Manitoba, Saskatchewan, Alberta, the North-West Territories, the Yukon Territory, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half ($3\frac{1}{2}$) million acres of land acquired by the Dominion Government from the Province of British Columbia, and referred to in subsection (b) of section 3 of the "Dominion Lands Act."

INTERPRETATION.

"Minister" shall mean the Minister of the Interior of Canada.

"Adjoining" lands shall be those which are not separated by a section, or by any of the regular subdivisions into which a section may be divided.

"Location" shall mean the tract described in a petroleum and natural-gas lease.

"Group" shall mean two or more of the locations described in petroleum and natural-gas leases, consolidated for purposes of operation.

"Lessee" means any individual, company, corporation, or municipality, the holder of a petroleum and natural-gas lease in good standing.

"River" shall mean a stream of water, the bed of which is of an average width of 150 feet throughout the portion thereof on which the tract applied for fronts.

1. The petroleum and natural-gas rights which are the property of the Crown, in Manitoba, Saskatchewan, Alberta, and the North West Territories, the Yukon Territory, the Railway Belt in the Province of British Columbia, and within the tract containing three and one-half ($3\frac{1}{2}$) million acres of land acquired by the Dominion Government from the Province of British Columbia, and referred to in subsection (b) of section 3 of the "Dominion Lands Acts," may be leased to applicants at a rental of twenty-five (25) cents an acre for the first year, and for each subsequent year a rental at the rate of fifty (50) cents an acre, payable yearly in advance. The term of the lease shall be twenty-one years, renewable for a further term of twenty-one years, provided the lessee can furnish evidence satisfactory to the Minister to show that during the term of the lease he has complied fully with the conditions of such lease and with the provisions of the regulations in force from time to time during the currency of the lease.

2. The maximum area of a petroleum and natural-gas location shall be 1,920 acres, and no person shall be permitted to acquire a greater area except by assignment:

Provided that a person who has been granted a lease for a location, and who subsequently abandons or assigns the same, may, after the expiration of

twelve months from the date of the said lease, apply for an area not greater than that abandoned or assigned:

Provided further, however, that such right shall not be granted unless all payments on account of rent or other liability to the Crown, due by such person, have been fully made, up to the date of the registration by the Department of the assignment of his right to such lease, or up to the date upon which the notice of his abandonment of the same was received by the Department.

3. If the tract applied for is situated in surveyed territory, it shall consist of sections, or legal subdivisions of sections, but the several parcels comprising the tract shall be adjoining, the length of the tract not to exceed three times its breadth. In unsurveyed territory, if at least one of the lines bounding the tract applied for has been surveyed, and the returns of such survey have been duly received in the office of the Surveyor-General, an application for a lease of the petroleum and natural-gas rights under such tract may be considered under the provisions of this section of the regulations.

4. Application for a lease of the petroleum and natural-gas rights on surveyed lands shall be filed by the applicant in person with the Agent of Dominion Lands for the district in which the rights applied for are situated, or with a sub-agent for such district, for transmission to the agent, but priority of application shall be based upon the date of the receipt of such application in the office of the Agent of Dominion Lands for the district.

5. If the rights applied for are situated in unsurveyed territory, application for a lease shall be made by the applicant in person to the Agent of Dominion Lands for the district in which the rights applied for are situated, or to a sub-agent for such district, for transmission to the agent.

6. Application for a location situated in unsurveyed territory shall contain a description by metes and bounds of the location applied for, and shall be accompanied by a plan showing the position of such location in its relation to some prominent topographical feature or other known point. The plan shall contain sufficient data to admit of the position of the location applied for being definitely shown in the records of the Department. The location must be rectangular in form, except where a boundary of a previously located tract is adopted as common to both locations, the length not to exceed three times the breadth.

The application shall be accompanied by evidence, supported by affidavit of the locator, to show that the following requirements have been fully complied with:—

(a.) That the location applied for has been defined on the ground by the locator in person by planting two wooden posts, at least four inches square, and standing not less than four feet above the ground, such posts being numbered "1" and "2" respectively. The distance between post No. "1" and post No. "2" shall not exceed 15,840 feet, and upon each post shall be inscribed the name of the locator and the date of the location. Upon post No. "1" there shall be written, in addition to the foregoing, the words "initial post," the approximate compass bearing of post No. "2," and a statement of the number of feet lying to the right and to the left of the line between post No. "1" and post No. "2." Thus—initial post, direction of post No. "2" is _____ feet lie to the right and _____ feet to the left of the line between post No. "1" and post No. "2."

When the tract which an applicant desires to lease has been located, he shall immediately mark the line between post No. "1" and post No. "2" so that it can be distinctly seen, in a timbered locality, by blazing trees and cutting underbrush, and in a locality where there is neither timber nor underbrush he shall set posts of the above dimensions or erect mounds of earth or rock not less than two feet high and two feet in diameter at the base in such a manner that the line may be distinctly seen.

(b.) All the particulars required to be inscribed on posts No. "1" and No. "2" shall be set out in the application and shall be accompanied by a plan showing the position of the tract in its relation to some prominent topographical feature or other

known point, such plan to contain sufficient data to admit of the location being shown definitely on the records of the Department.

(c.) The locator shall post a written or printed notice on a conspicuous part of the location applied for, setting out his intention to apply within thirty days from the date of such notice for a lease of the petroleum and natural-gas rights under the said location.

(d.) The application shall be accompanied by evidence, supported by the affidavit of the locator, in due form, to show that the above requirements of the regulations have been fully complied with.

7. In case the tract applied for is located in unsurveyed territory on the margin of a river or lake, it shall not include more than one mile in direct distance along such water-frontage, and shall extend back therefrom as far as may be necessary to include a total area of not more than 1,920 acres, the length of the location, however, not to exceed three miles. The tract shall be marked on the ground by two posts firmly fixed in the ground, one at each end of such front boundary. The posts shall be numbered "1" and "2" respectively. It shall not be lawful to move post No. "1," but post No. "2" may be moved by a Dominion Land Surveyor if the distance between the posts exceeds the length prescribed by these regulations, but not otherwise. The side boundaries shall be parallel lines drawn from each end of the front boundary at right angles to the base-line of such river or lake, established or to be established by the Department. In the event of the base-line not being established, the side boundaries of the location shall be drawn at right angles to the general direction of the valley of the river or the margin of the lake. The required notice of application shall be posted conspicuously on the location near the margin of the lake or river on which it fronts.

The boundaries of claims situated on the margin of a lake or river, and any disputes which may arise in connection therewith, shall be subject to final adjustment by the Minister.

8. Application for a lease of the petroleum and natural-gas rights under lands situated in unsurveyed territory shall be made by the locator in person to the Agent of Dominion Lands for the district in which the tract applied for is situated, or to a sub-agent for such district, within thirty days from the date upon which the tract applied for was staked as above provided, if it is situated within one hundred miles of the office of the agent or sub-agent, otherwise it will not be considered. One extra day, however, shall be allowed for every additional ten miles or fraction thereof that the location is distant more than one hundred miles from the office of the agent or sub-agent.

9. Where two or more persons lay claim to the same location, or to portions of the same locations, situated in unsurveyed territory, the right to the lease shall be in him who can prove to the satisfaction of the Minister that he was the first to take possession of the tract in dispute by staking in the manner prescribed in these regulations, and that he made application for a lease within the specified time.

10. As soon as the survey of a township has been confirmed, all petroleum and natural-gas leases embracing any portion of such township so surveyed and confirmed shall be made to conform to the Dominion Lands System of Survey if the Minister so decides, by the substitution of a new lease describing by sections, legal subdivisions of sections, or regular portions of legal subdivisions—as nearly as may be—the tract embraced in the leasehold in so far as the township so surveyed is concerned. If any part of the leasehold is in territory which remains unsurveyed, it shall continue to be described as in the lease originally issued, until such portion is included in a confirmed survey.

11. As soon as the survey of a township has been confirmed, all petroleum and natural-gas leaseholds embracing any portion of the township so surveyed and confirmed shall be subject to withdrawal forthwith from the lease, without compensation to the lessees, of any portions which, in accordance with such confirmed survey, are found to be the property of the Hudson's Bay Company:

Provided, however, that upon such withdrawal being made from any location in good standing, the

rental paid on the land so withdrawn, in whole or in part, may, in the discretion of the Minister, be refunded to the lessee.

12. The rental for the first year of the location applied for, at the rate of twenty-five (25) cents an acre per annum, shall accompany the application filed in the office of the Agent of Dominion Lands for the district in which the rights applied for are situated, and no application for a lease of petroleum and natural-gas rights shall be accepted or recorded unless it is accompanied by the full amount of the rental for the first year at the above rate. The lease, when issued, shall bear date from the day upon which the application was filed in the office of the Agent of Dominion Lands. If, during the term of the lease, the lessee shall fail to pay rental in advance for each subsequent year at the rate of fifty (50) cents an acre per annum within thirty days after the date upon which the same became due, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of the rights which the lessee had in the said lease.

13. Provided that if the lessee, in consideration of the expenditure to be incurred by him in actual boring operations upon his leasehold, makes application, at or before the beginning of the second and third years, respectively, of the term of the lease, for an extension of time within which to pay the rental when due, or becoming due, the Minister may grant such extension of time in writing, and if the lessee, before the end of the year in respect of which application was made, submits evidence to the Land Agent of the district in which the leasehold is situated, supported by affidavit, that during such year actual boring operations have been prosecuted upon his leasehold, as required by section 15 of these regulations, the amount expended in such boring operations, exclusive of the cost of machinery and casing, may be deducted from the rental which became due at the beginning of the said year. The balance of rental due (if any) shall be paid at the same time as the evidence in regard to work done is submitted, as above required. Failure to submit such evidence, or to pay the balance or rental due, with interest, will render the lease liable to cancellation, as hereinbefore provided.

14. The lessee shall, within one year from the date of the lease, have upon the lands described therein such machinery and equipment suitable for carrying on prospecting operations as the Minister may consider necessary, and he shall within the same period furnish evidence, supported by affidavit, showing the character, quantity, and value of the machinery so installed, the date of its installation, and the particular parcel of land upon which it was installed. If the required machinery is not installed within the period specified, and if evidence of its installation is not furnished within the prescribed period, the lease shall be subject to cancellation in the discretion of the Minister: Provided, however, that the Minister shall not require that the value of the machinery so installed on location shall exceed the sum of five thousand dollars (\$5,000).

15. The lessee shall commence boring operations on his leasehold within fifteen months of the date of his lease, and he shall continue such boring operations with reasonable diligence, to the satisfaction of the Minister, with a view to the discovery of oil or natural gas. If the lessee does not commence boring operations within the time prescribed, or if having commenced the operations he does not prosecute the same with reasonable diligence, to the satisfaction of the Minister, or if he ceases to carry on the same for a period of more than three months, the lease shall be subject to cancellation in the discretion of the Minister, upon three months' notice to this effect being given to the lessee: Provided, however, that if satisfactory evidence is furnished to show that the sum of at least two thousand dollars (\$2,000) has been expended in actual boring operations, by recognized methods, upon the leasehold in any year, such expenditure shall be accepted as compliance with this provision for the year during which such expenditure shall have been incurred.

16. The Minister may permit a lessee, who has acquired by assignment or otherwise more than one

petroleum and natural-gas lease, to consolidate his operations and expenditure, and to install machinery and equipment on one or more of the locations described in the lease affected: Provided that such consolidation or grouping shall apply only to the second and third years of the term of the leases, and shall comprise only such leases as may at the time be included in such consolidation or grouping. Evidence of the installation of machinery on one or more of the locations included in a group shall be that prescribed by section 14 of these regulations. If the required machinery is not installed on one or more of the locations included in a group within the period specified and evidence of its installation furnished within the prescribed period, and if boring operations are not commenced and continued on such location or locations in the manner set out in section 15 of these regulations, the leases included in the group shall be subject to cancellation in the discretion of the Minister.

17. The Minister may, in consideration of the expenditure to be incurred by a lessee in boring operations upon one or more of the locations included in a group, grant an extension of time within which to pay the rental for the second and third years of the terms of the several leases so included, and upon receipt of the evidence required by section 13 of these regulations, he may deduct from the rental which became due at the beginning of the year in respect of the several locations grouped the amount expended in actual boring operations on one or more of the locations, exclusive of the cost of machinery and casing. The balance of the rental due (if any) shall be paid at the same time as the evidence in regard to work done is submitted, as above required. Failure to submit such evidence or to pay the balance or the rental due, with interest, will render the several leases included in the group liable to cancellation.

18. Provided, however, that the Minister shall not require that the value of the machinery to be installed on any group of locations shall exceed the sum of ten thousand dollars (\$10,000), nor shall he require that the expenditure incurred in boring operations thereon in any one year shall exceed the sum of two thousand dollars (\$2,000) for each location included in the group.

19. The maximum area of the locations which may be included in one consolidation or group shall not exceed twenty (20) square miles, nor shall the locations so included be separated one from the other by a greater distance than two miles.

20. The Minister may, upon application, grant a lessee during the second and third years of the term of the lease an extension of time within which to pay the rental and to install the prescribed machinery and equipment, and within which to commence actual boring operations upon the location, or upon a group of locations consolidated under the provisions of these regulations: Provided that evidence to the satisfaction of the Minister is furnished to show that an expenditure equal to that prescribed by these regulations in respect of boring operations is to be incurred in some other acceptable and necessary form of preliminary development, having for its object the discovery of petroleum or natural gas by which the interests of the district in which the locations are situated might be materially benefited. Upon receipt of evidence on or before the termination of the year, supported by affidavit and duly corroborated, that such expenditure has been incurred and that the work done was of a character beneficial to the district, the Minister may deduct the amount of such expenditure from the amount due on account of the rental of the location or locations affected, in the manner prescribed in section 13 of these regulations. In case evidence is not furnished, or if furnished is not acceptable to the Minister, the leases shall be subject to immediate cancellation in the discretion of the Minister.

In case an extension of time is granted during the second and third years of the term of a lease within which to install machinery and commence boring operations on any location under the grouping provisions of these regulations, then the provisions of sections 14 and 15 of the regulations shall apply to the fourth year of the term of the lease of such location.

21. In case the surface rights of a petroleum and natural-gas location are covered by a timber licence, grazing or coal-mining lease, mining claims or other form of terminable grant, the lease shall not authorize entry thereon, without the permission of the Minister being first had and obtained, and such permission shall be given subject to such conditions for the protection of the rights of such lessee or licensee as it may be considered necessary to impose.

22. In case the surface rights of a petroleum and natural-gas location have been patented, or have been disposed of by the Crown under any Act or regulation which contemplates the earning of patent of such surface rights, and the lessee of the petroleum and natural-gas rights cannot make an arrangement with the owner of such surface rights, or with his agent, or the occupant thereof, for entry upon the location, or for the acquisition of such interest in the surface rights as may be necessary for the efficient and economical operation of the rights acquired under his lease, he may, provided the mineral rights in the land affected with access thereto and the right to use and occupy such portion of the land as may be necessary for the effectual working of the minerals therein have been reserved to the Crown in the original grant of the surface rights, apply to the Minister for permission to submit the matter in dispute to arbitration. Upon receiving such permission in writing, it shall be lawful for the lessee to give notice to the owner, or his agent, or the occupant, to appoint an arbitrator within a period of sixty days from the date of such notice to act with another arbitrator named by the lessee, in order to determine what portion of the surface rights the lessee may reasonably acquire:—

(a.) For the efficient and economical operation of the rights and privileges granted him under his lease;

(b.) The exact position thereof; and

(c.) The amount of compensation to which the owner or occupant shall be entitled.

23. The notice mentioned in this section shall be according to a form to be obtained upon application to the Agent of Dominion Lands for the district in which the land in question is situated, and shall, when practicable, be personally served on the owner of such land, or his agent, if known, or the occupant thereof, and after reasonable efforts have been made to effect personal service without success, then such notice shall be served by leaving it at, or sending it by registered mail to, the last-known place of abode or address of the owner, agent, or occupant, and by posting a copy of the same in the office of the Agent of Dominion Lands for the district in which the land in question is situate. Such notice shall be ten days if the owner, or his agent, resides in the district in which the land is situate; if out of the district and if in the Province or Territory, twenty days; and if out of the Province or Territory, thirty days, before the expiration of the time limited in such notice. If the owner, or his agent, or the occupant of the land refuses or declines to appoint an arbitrator, or when, for any reason, no arbitrator is so appointed in the time limited therefor in the notice provided for by this section, the Agent of Dominion Lands for the district in which the land in question is situate shall forthwith, on being satisfied by affidavit that such notice has come to the knowledge of such owner, agent, or occupant, or that such owner, agent, or occupant wilfully evades the service of such notice, or cannot be found, and that reasonable efforts have been made to effect such service, and that the notice was left at the last place of abode or known address of such owner, agent, or occupant, as above provided, appoint an arbitrator on his behalf.

24. In case the two arbitrators cannot agree upon the award to be made, they may, within a period of ten days from the date of the appointment of the second arbitrator, select a third arbitrator, and when such two arbitrators cannot agree upon a third arbitrator, the Agent of Dominion Lands for the district in which the land in question is situate shall forthwith select such third arbitrator.

25. All the arbitrators appointed under the authority of these regulations shall be sworn before a Justice of the Peace to the impartial discharge of the duties assigned to them, and after due consideration of the rights of the owner and the needs

of the lessee, they shall decide as to the particular portion of the surface rights which the latter may reasonably acquire for the efficient and economical operation of the rights and privileges granted him under his lease the area thereof, and the amount of compensation therefor to which the owner or occupant shall be entitled.

26. In making such valuation the arbitrators shall determine the value of the land irrespective of any enhancement thereof from the existence of minerals thereunder.

27. The award of any two such arbitrators made in writing shall be final, and shall be filed with the Agent of Dominion Lands for the district in which the land is situate within twenty days from the date of the appointment of the last arbitrator. Upon the order of the Minister the award of the arbitrators shall immediately be carried into effect.

28. The arbitrators shall be entitled to be paid a per diem allowance of \$5, together with their necessary travelling and living expenses, while engaged in the arbitration, and the costs of such arbitration shall be in the discretion of the arbitrators.

29. The lessee shall at all times take reasonable measures to prevent the injurious access of water to the oil-bearing formation. Upon a well proving to be unproductive, or ceasing to yield oil in paying quantity, or being abandoned for any cause, the lessee shall be at liberty to withdraw the casing from the said well; but in order to prevent water gaining access to the oil-bearing formation, the lessee shall immediately close the well by filling it with sand, clay, or other material which may have the effect of preventing water from gaining access thereto.

In case natural gas is discovered through boring operations on a location, the lessee shall take all reasonable and proper precautions to prevent the waste of such natural gas, and his operations shall be so conducted as to enable him, immediately upon discovery, to control and prevent the escape of such gas.

Should salt-water be encountered through operations upon the location, the lessee shall immediately and effectively, to the satisfaction of the Minister, close the well at such a depth as may prevent such water from gaining access to the oil-bearing formation.

The Minister may from time to time make such additional regulations as may appear to be necessary or expedient governing the manner in which boring operations shall be conducted, and the manner in which the wells shall be operated.

Failure on the part of the lessee to comply with the above requirements, or to comply with such other requirements as the Minister may consider it necessary to impose in respect of boring and operating, will render the lease subject to cancellation in the discretion of the Minister.

30. The lessee may be permitted to relinquish at any time the whole or any portion of the location described in his lease, provided he has complied in every respect with the provisions of the regulations, and that all payments on account of rental or other liability to the Crown, due in connection with the lease, have been fully made, and provided the portion of the location which may be retained shall be of the prescribed shape, and shall not be of a less area than forty acres.

31. The lease shall in all cases include only the oil and natural-gas rights, which are the property of the Crown, but the lessee may, upon application, be granted a yearly lease at a rental of one dollar (\$1) an acre per annum, payable yearly in advance, of whatever area of the available surface rights of the tract described in his petroleum and natural-gas lease the Minister may consider necessary for the efficient and economical working of the rights granted him.

32. Should oil or natural gas in paying quantity be discovered on the leasehold, and should such discovery be established to the satisfaction of the Minister, the lessee will be permitted to purchase at the rate of ten dollars (\$10) an acre whatever area of the available surface rights of the tract described in the lease the Minister may consider necessary for the efficient operation of the rights granted him.

33. If it is not established to the satisfaction of the Minister that oil or natural gas in paying quantity has been discovered on the leasehold, the lease shall be subject to termination upon two years' notice in writing being given to the lessee by the Minister.

34. The boundaries beneath the surface of a location shall be vertical planes or lines in which their surface boundaries lie.

35. A fee of five dollars (\$5) shall accompany each application for a lease, which will be refunded if the rights applied for are not available, but not otherwise.

36. The lease shall be in such form as may be determined by the Minister of the Interior, in accordance with the provisions of these regulations.

37. The lessee shall not assign, transfer, or sublet the rights described in his lease or any part thereof without the consent in writing of the Minister being first had and obtained.

38. No royalty shall be charged upon the sales of the petroleum acquired from the Crown under the provisions of the regulations up to the 1st day of January, 1930, but provision shall be made in the leases issued for such rights that after the above date the petroleum products of the location shall be subject to whatever regulations in respect of the payment of royalty may then or thereafter be made.

39. A royalty at such rate as may from time to time be specified by Order in Council may be levied and collected on the natural-gas products of the leasehold.

40. Any company acquiring by assignment or otherwise a lease under the provisions of these regulations shall at all times be and remain a British company, registered in Great Britain or Canada, and having its principal place of business within His Majesty's Dominions, and the chairman of the said company and a majority of the directors shall at all times be British subjects, and the company shall not at any time be or become, directly or indirectly, controlled by foreigners or by a foreign corporation.

Any alteration in the memorandum or articles of association or in the constitution of the company, or in the by-laws of the company, shall be reported to the Minister; provided that two months' previous notice of the intention to make any alteration which might conceivably affect the British character of the company shall be given in writing to the Minister, and if, in the opinion of the Minister the said alteration shall be contrary to the cardinal principle that the lessee company shall be and remain a British company under British control, the Minister may refuse his consent to such alteration.

If the company which may acquire a location under these regulations shall at any time cease to be a British company, or shall become a corporation under foreign control, or shall assign any of the rights acquired under the lease without the consent in writing of the Minister being first had and obtained, the lease shall be subject to immediate cancellation in the discretion of the Minister.

41. The Minister may at any time assume absolute possession and control of any location acquired under the provisions of these regulations, if in the opinion of the Government of Canada such action is considered necessary or advisable, together with all buildings, works, machinery, and plant upon the location, or used in connection with the operation thereof, and he may cause the same to be operated and may retain the whole or any part of the output, in which event compensation shall be paid to the lessee for any loss or damage sustained by him by reason of the exercise of the powers conferred by this provision of the regulations; the amount of the compensation, in case of dispute, to be fixed by a Judge of the Exchequer Court of Canada; provided that the compensation in any such case shall not exceed the profit which the lessee would have earned in the working of the location and the disposal of the products thereof, had possession and control of the location and of the buildings, works, machinery, and plant not been assumed.

42. If the location described in any lease issued under the provisions of these regulations shall yield oil in paying quantity, the lessee shall pump and

work the wells faithfully and uninterruptedly with due vigour and skill, with good and sufficient machinery and appliances in accordance with the provisions of the regulations and to the satisfaction of the Minister, so long as the said wells continue to yield oil in remunerative quantity.

43. At the end of each year of the term of the lease the lessee shall furnish a statement, supported by affidavit, showing the number of days during the year that operations were carried on upon the location; the number of men so employed; the character of the work done; the depth attained; the total expenditure incurred; a detailed statement setting out fully the purpose for which such expenditure was incurred; the quantity of crude oil or natural gas obtained; and the amount realized from the sale thereof. Failure to furnish such yearly return will render the lessee subject to a fine of ten dollars (\$10) a day for each day's delay in furnishing the sworn statement, and after three months' delay the lease shall be subject to cancellation.

44. These regulations shall apply to all applications submitted on and after the first day of August, 1913, in accordance with the provisions of the regulations which were for the time in force. fe12

10. And that the licensee shall pay dues upon any and all green or dry timber which may be cut on the said lands in connection with the operations of the licensee.

11. And that the licensee shall burn all refuse, tree-tops, and branches which may result from the cutting of said timber; such burning to be performed at the expense of the licensee and under the direction of the Superintendent of the Park.

12. And that the licensee shall remove and dispose of all mining or other refuse resulting from the said mining operations in a manner satisfactory to the said Superintendent.

13. And that the licensee shall at its own expense, not exceeding five hundred dollars (\$500.00), construct a dwelling in a suitable location, for a fire and game guardian of the Park's organization, both the design and location of such dwelling to be approved by the said Superintendent.

20. And that the amounts of any rents charged or emoluments received by the licensee in connection with the townsite, or for water, sewer, electric light, or other service shall be subject to revision by the said Superintendent.

21. And that the licensee shall and will take such action at any time and in any manner as the Minister may reasonably direct or require to beautify the said townsite.

22. 23. And that the licensee shall sanction or permit any person, persons, or corporation having the permission of, or licence from the Minister in writing, to operate, set up, locate, establish, or maintain any boarding-house, hotel, or other place of accommodation, sale or amusement, or any livery, store, dairy, or other place of business of any kind whatsoever, on said lands without any fee, rental, licence, or any other charge being made, received, or exacted by said licensee for the land used or occupied for such a purpose other than that approved of, authorized or sanctioned by the Minister, but no such permission or licence shall be granted which shall or may obstruct or interfere with the exercise and enjoyment of the licensee's rights hereunder.

24. And that the licensee shall allow and give or cause to be given every facility and assistance to the Minister for him to take or have taken from the mouth of the mine or mines on the lands under this licence, as much and all the coal which may be required at any time for the use of the Department of the Interior, upon payment of the market price of said coal at the time the same is so taken, or to have said coal delivered on board cars at Pochontas upon payment by the Minister of the market price of said coal and the cost of transportation thereof to Pochontas.

And that these presents shall be subject to the Dominion Parks Regulations for the time being in force, and all officers and employees of the said Parks shall have the same authority over the said lands as they have in respect of any other portion of the said park, provided they shall exercise such authority so as to cause as little obstruction, inconvenience, or interference as possible to or with the licensee in the exercise and enjoyment of its rights hereunder.

27. And that if any part of the rent hereby reserved shall be unpaid for thirty days after becoming payable (whether formally demanded or not) or if any condition on the licensee's part herein contained shall not be performed or observed, or if for any reason the lease of the coal mining rights in the said lands held by the licensee ceases or determines, then and in any of the said causes it shall be lawful for the Minister at any time, by notice in writing, to declare these presents determined, and thereupon this licence shall absolutely determine, but without prejudice to the right of action of His Majesty in respect of any breach of the conditions herein contained.

28. And that His Majesty will, on the written request of the licensee made six months before the expiration of the term over which the aforesaid licence is granted, and if there shall not be at the time of such request any existing breach or non-observance of any of the conditions on the part of the licensee hereinbefore contained, and if the licensee shall obtain a renewal of the said lease of the mining rights in said lands, grant to it a licence of occupation of the said lands for a further term of twenty-one years from the expiration of the said term at a rent and containing provisos

DEPARTMENT OF LANDS.

RULES, REGULATIONS, AND FEES UNDER THE "WATER ACT," BRITISH COLUMBIA.

September 3rd, 1913.

1. His Honour the Lieutenant-Governor in Council has been pleased to direct the publication of the following rules, regulations, and fees under the "Water Act" in accordance with Order in Council No. 58, approved the 13th day of January, 1914, which specifies that the same take the place of all former rules, regulations, and fees made in respect of the "Water Act," the "Water Act, 1909," or any former Act.

Interpretation.

2. In the construction of these regulations, including this clause, if not inconsistent with the context, the following terms shall have the respective meanings herein assigned to them:—

"Act" means the "Water Act" of British Columbia and any Act passed by way of amendment or consolidation thereof or in substitution therefor:

"Permit" means the permit to make surveys granted to an applicant for a licence under the Act:

"Survey-construction period" means that time during the pendency of an application for a final licence which occurs between the date of the permit and the date when beneficial use of the water under the conditional licence is first made:

"Operation period" means the time during the continuance of the licence after the date when beneficial use is first made as aforesaid:

"Due notice" means notice by registered letter of the address given in the application or of any amendments of the said address on file in the office of the Water Rights Branch.

Any other words used in these regulations which have an interpretation given them by section 2 of the Act shall have the same meaning in these regulations.

Division of Rules.

3. These rules, regulations, and fees shall be divided into seven parts, relating to the following subjects:—

Part I.—Petitions to the Lieutenant-Governor in Council or the Minister—Procedure and Fees:

Part II.—Expropriation by Municipalities:

Part III.—The Use and Occupation of Crown Lands:

Part IV.—Fees for the Use of Water for Domestic, Irrigation, and other Purposes:

Part V.—Fees for the Use of Water in the Development of Power:

Part VI.—Headgates, Structures, and the Measurement of Water:

Part VII.—Filing of Plans, Office Procedure, and Fees.

PART I.—PETITIONS TO THE LIEUTENANT-GOVERNOR IN COUNCIL OR THE MINISTER—PROCEDURE AND FEES.

4. This part deals with procedure and fees on petitions and certificates under sections 89, 93, 97, 119, 120, 153, 154, 161, 170, 179, 284, 285, 288A, 288B, 312, and 329 of the Act.

5. Petitions shall be intitled in the matter of the "Water Act," and the record, licence, or application in respect of which action is requested.

6. Where no procedure is specified in the Act, petitions shall be filed in duplicate, one copy with the Comptroller and one copy with the Water Recorder of each district affected by the works or the undertaking.

7. The names of the parties upon whom the Act requires notice to be served shall be entered by the petitioner at the foot of the petition.

8. The name and place of publication of the newspaper in which notices of the petition are to be published (when publication is required by the Act) shall be entered by the petitioner at the foot of the petition.

9. The Comptroller may direct that the petition be served on other parties, or be advertised for a longer period or in additional newspapers, or that additional information be furnished.

10. Unless otherwise specified in the Act, publication of any matter respecting a petition to the Lieutenant-Governor in Council or the Minister shall consist of advertisement in a local newspaper once a week for four consecutive weeks and in two issues of the British Columbia Gazette.

11. An objection to the petition may be filed in the office of the Comptroller and may be in the form of a letter addressed to the Minister or Comptroller.

12. On the filing of an objection the Comptroller shall forward a copy thereof to the petitioner, and shall cause other copies to be filed in the same offices where the petition is required to be filed. The petitioner may give notice to the Comptroller that he requires further particulars from the objector, and the Comptroller may order the objector to file the information desired within such time as he may consider sufficient.

13. In the event of an objection being filed, the Minister or the Chairman of the Board, as the case may be, shall notify the Comptroller in writing of the date when and the place where the petition is to be heard.

14. The Comptroller shall notify the petitioner and the objector (if any) of the said date and place forthwith on receipt of the notice mentioned in the last preceding clause.

15. The Comptroller shall present at the said hearing any additional material on file in his office and his report (if any) relating to the inquiry.

16. Notice of the amendment of any petition shall be given by advertisement, as required in clause 10: Provided, if the amendment is not a material one and if a written order to that effect be obtained from the Minister and filed in the office of the Comptroller, and upon due notice to every person who has entered an objection and to any other persons who may, in the opinion of the Comptroller, be interested, the said advertisement may be dispensed with.

17. Any plans which are to be submitted in pursuance of the petition shall be signed by the engineers or officials reporting thereon.

18. When the petition affects highways, bridges, Provincial public works, or other matters not coming within the scope of the Lands Department, the petitioner shall submit the petition and copies of any plans to the proper department, and shall submit to the Comptroller satisfactory proof of having done so.

19. The Comptroller shall cause copies of all certificates or orders issued or made respectively by the Lieutenant-Governor in Council or the Minister which affect administration under the "Water Act" to be recorded in the office of the Water Recorder of each district affected by the works or the undertaking, and shall transmit the said certificates or orders to the parties entitled thereto on payment of all fees then due.

20. The above clauses shall not apply to appeals the procedure of which is provided by section 322 of the Act.

Petition under section 329 (information by injured party)—No fee.	
All other petitions, charge in the discretion of the Minister.	

PART II.—EXPROPRIATION BY MUNICIPALITIES.

22. This part deals with the expropriation of water licences by municipalities under section 149 of the "Water Act."

23. The municipality shall serve the holder of the licence or licences it is proposed to expropriate, or if the land to which a licence is appurtenant is used by other than the owner, then both holder and user, with a thirty clear days' notice of such intended expropriation.

24. Such notice shall state clearly the amount or amounts of compensation proposed to be given.

25. Before the expiration of the said thirty clear days' notice the licence-holder, or the licence-holder and user, shall determine whether or not he or they will accept the compensation mentioned in the said notice, and notify the municipality accordingly.

26. Failure to give such notification shall operate as refusal to accept the compensation offered.

27. In the event of one (either holder or user) accepting the proposed compensation in respect of his interest in the licence and the other refusing, then the same proceedings may be had and taken in respect of the interest of the party refusing to accept the proposed compensation as may be had and taken if the proposed compensation had been refused by either the holder or both holder and user.

28. If the holder of a licence is absent from the Province, or after diligent inquiry and search cannot be found, a petition may be presented to the Minister for leave to give notice of expropriation by advertising in a newspaper of the district in which the water right is situated, or in the absence of such newspaper, in the one near thereto, and in the British Columbia Gazette for thirty clear days.

29. If the holder or holder and user of a licence shall accept the proposed compensation, the municipality may, after payment or tender of the amount, take and use the water rights under the licence expropriated, and secure a substituted licence therefor, having the priority of the licence expropriated.

30. If the holder or holder and user of a licence shall not accept the proposed compensation, then the amount of compensation shall be ascertained by arbitration under the "Arbitration Act."

31. If the notice has been given by publication under Rule 28, then the Minister may appoint an arbitrator or arbitrators to decide the amount or amounts of compensation which shall be given.

32. If the arbitrator or arbitrators shall award to the holder and user, or either of them, a larger sum than that offered by the municipality, then the cost of the arbitration shall be borne by the municipality; but if the award shall be equal to or less than the amount or amounts offered by the municipality, then the costs of the arbitration shall be borne and paid by the party or parties refusing to accept the offered compensation.

33. Upon payment or tender by the municipality of the amount or amounts of the award to the holder or holder and user, the municipality may take and use the water rights under the licence expropriated, and secure a substituted licence therefor.

34. The procedure for expropriation of a water record issued under any former Act shall be similar to the above procedure for expropriation of a licence, and a licence may issue for the record expropriated having the priority of the record expropriated.

PART III.—THE USE AND OCCUPATION OF CROWN LANDS.

35. This part deals with the conditions upon which a licensee, a record-holder, or an applicant for a licence under the "Water Act" shall take possession of, use, or occupy any Crown lands, or

fell timber thereon, for rights-of-way and other purposes.

36. The said licensee, record-holder, or applicant shall satisfy the Minister that he is the holder of a valid water record or water licence or permit and has obtained the approval of the works in connection therewith.

37. He shall satisfy the Minister that the right-of-way over such Crown lands is necessary for the construction or maintenance of the works for the diversion and carriage of the water mentioned in the said licence, record, or permit.

38. He shall have expressly agreed that no Chinese or Japanese shall be employed on the construction of the said works.

39. He shall have agreed to pay to the Crown in the right of the Province for the use of the said right-of-way the sum of 25 cents per acre per annum, and shall have agreed to pay to the Crown in the right of the Province for such timber as he may cut or carry away from the said right-of-way the sum of \$2 per 1,000 feet, board measure.

40. The Minister shall have published at the expense of the said licensee, record-holder, or applicant in two issues of the British Columbia Gazette a notice to the effect that the said licensee, record-holder, or applicant has full and free liberty to enter upon the right-of-way described in the said notice for the purpose of laying down and constructing works upon, over, or under the said right-of-way for the diversion and carriage of the water mentioned in the said water licence, record, or permit.

41. The said licensee, record-holder, or applicant may thereupon exercise the rights mentioned in the said notice, subject to due compliance with the conditions above set out, until the said licence, record, or permit is abandoned, cancelled, or otherwise avoided, and that on such abandonment, cancellation, or avoidance all the said works, if on Crown lands, shall be forfeited to the Crown, and, if not on Crown lands, shall become forfeited to and become the property of the owner of the land upon which the works are situate.

PART IV.—FEES FOR THE USE OF WATER FOR DOMESTIC, IRRIGATION, AND OTHER PURPOSES.

42. This part of these rules and regulations deals with fees for the use of water for domestic, irrigation, industrial, mining, and other purposes where the production of power is not involved. Fees affecting the use of water in the development of power are dealt with in Part V.

43. A record fee shall be payable within fifty days from the first publication in a local newspaper of the notice of intention to apply for a licence. (This date is fixed by section 61 of the Act.)

44. The record fee shall be computed at the following rates:—

For irrigation, 5 cents per acre-foot per year applied for:

For placer-mining in open sluices, \$1 per cubic foot per second applied for:

For hydraulic mining, \$10 per cubic foot per second applied for:

For mineral or spring water for sale, barter, or exchange, 50 cents per 500 gallons per day applied for:

For storage on the amount applied for, as follows: Each acre-foot up to 1,000, \$0.002; each additional acre-foot, \$0.001:

For clearing streams for driving logs, the fee paid on the filing of the petition, \$25, shall constitute the record fee, and a licence fee of \$100 shall be further payable as provided in section 180 of the Act:

For all other uses, except where power is produced, 50 cents per 5,000 gallons per day applied for:

Provided that, if the quantity applied for is reduced in the permit, the record fee shall be reduced according to the quantity specified in the permit, and any excess payment made by the applicant above the latter amount may, at the discretion of the Comptroller, either be refunded to the applicant or applied on the next subsequent payment falling due under the application, and that the minimum fee in any case shall be \$1.

Bond.

45. At the time of granting a permit the Comptroller shall require every company whose application involves the sale, barter, or exchange of water and every "irrigation company" to execute a good and sufficient bond, guaranteeing the performance in good faith, and to the satisfaction of the Comptroller and the Minister, of the things required to be done by it under the terms of the Act during the survey-construction period. The amount of this bond for the companies named shall be not less than twenty times the amount of the record fee; for other applicants under this part the nature and amount of the bond shall be fixed in the discretion of the Comptroller.

Annual Rental Fees, Survey-construction Period.

46. An annual rental fee shall be paid during the survey-construction period equal in amount to the record fee as finally determined under clause 44.

47. The first payment of fees to apply on rental during the survey-construction period, known as the permit-payment, shall be payable on the day when the permit is issued, and shall cover the rental for a year from the said date. The second rental payment shall be payable on or before the first day of June in the first full calendar year of the said period, and shall cover the part of the said calendar year not covered by the first payment. Subsequent rental payments shall be payable on or before the first day of June of each year thereafter, and shall cover the fee for the calendar year respectively in which they are made.

48. All payments made on account of rental during the survey-construction period (but not the record fee) may, if in the opinion of the Comptroller the survey and construction work has been prosecuted with due diligence, be credited to the licensee for the cancellation of charges as they become due in the operation period.

49. If any part of the amounts due for fees as set forth in clauses 46 and 47 hereof shall, after due notice has been given be in arrears for sixty days, then and thereupon—

(a.) If the applicant holds under a permit, the Comptroller may cancel the said permit; or

(b.) If the applicant holds under a conditional licence, the Lieutenant-Governor in Council may, on the recommendation of the Minister, direct the Comptroller to cancel the said conditional licence.

Annual Rental Fees, Operation Period.

50. An annual rental fee shall be paid during the operation period according to the quantity of water used by the licensee as estimated by the Comptroller from all data available for the calendar year preceding that in which the fee is paid, at the following rates:—

For irrigation, 2 cents per acre-foot of water used:

For hydraulic mining, \$1 per year for a flow of one cubic foot per second:

For mineral or spring water for sale, barter, or exchange, such royalty as the Minister may impose:

For storage, as follows: Each acre-foot up to 1,000, \$0.002; each additional acre-foot, \$0.001:

For clearing streams for driving logs, \$25 on each licence. (This is fixed by the Act; see section 180):

For all other uses, except where power is developed, 50 cents a year for a flow of 5,000 gallons a day:

Provided that the minimum fee in any case shall be 50 cents, and that the holder of a record for a placer-mining claim shall not be charged for water that is being used in open sluices only, and that for water which is being lifted from streams by pumping systems one-half of the regular rate may be charged.

51. Until measuring devices are installed and accurate measurements kept to the satisfaction of the Engineer of the water district and of the Comptroller, as hereinafter provided, the Comptroller may estimate the quantity of water used, taking into consideration, where the purpose is irrigation, the number of acres irrigated and an average duty of water for the locality in which the land is situated; where the purpose is municipal, the number of inhabitants supplied, 60 gallons per day per inhabitant being declared a fair estimate for this purpose; and

where the purpose is other than the above, such other factors as may, in the opinion of the Comptroller, best enable him to estimate the quantity of water used.

52. The first payment of fees to apply on rental during the operation period shall be payable on the first day of June in the first full calendar year of the said period, and shall cover the rental for the said calendar year and for such part of the preceding calendar year as falls within the said period. Subsequent rental payments shall be payable annually thereafter, and shall each cover the fee for the calendar year respectively in which they are made.

53. If any of the amounts due for the said fees shall, after due notice has been given, be in arrears for more than one year, then and thereupon the Lieutenant-Governor in Council may, on the recommendation of the Minister, direct the Comptroller to cancel the conditional or final licence, as the case may be.

PART V.—FEES FOR THE USE OF WATER IN THE DEVELOPMENT OF POWER.

54. This part of these regulations deal with fees for the use of water in the development of power.

Record Fee and Bond.

55. A record fee shall be payable within fifty days from the first publication in a local newspaper of the notice of intention to apply for a licence. (This date is fixed by section 61 of the Act.)

56. The said record fee shall be based upon the net amount of energy, expressed in horse-power, which can be developed at the site from the amount of the flow of water applied for. For the purpose of this tariff, the said horse-power shall be determined as the continued product of the following factors:—

(a.) The amount of the flow of the water applied for expressed in cubic feet per second:

(b.) The average available static head in feet. (Unless surveys have established the said head, the Comptroller shall make an estimate of the same from such data as are available, and this estimate shall be used hereunder; provided that after surveys have established the said head the record fee shall be readjusted in accordance therewith, and any excess or deficiency of the payment made on account thereof shall be deducted from or added to the next subsequent payment falling due under the application):

(c.) The factor 0.08 (which represents the horse-power produced by one cubic foot of water falling through one foot in one second at 70 per cent. efficiency).

57. The amount of the said record fee per horse-power shall be as follows:—

Each horse-power up to 1,000	\$0 50
Each additional horse-power up to 5,000	25
Each additional horse-power above 5,000	10

58. At the time of the granting of a permit the Comptroller shall require the execution by the applicant of a good and sufficient bond, guaranteeing the performance in good faith, and to the satisfaction of the Comptroller and the Minister, of the things required to be done by him under the terms of the permit and of the Act during the survey-construction period. The amount of this bond shall be not less than five times the amount of the record fee.

Survey-construction Period.

59. An annual rental fee shall be paid during the survey-construction period, its amount to be based on the same principle and computed in the same manner as the record fee (clauses 56 and 57, above): Provided that where the requisite data contained in the application is varied in the permit the computation shall be based on the latter.

60. The first payment of fees to apply on rental during the survey-construction period, known as the permit-payment, shall be payable on the day when the permit is issued, and shall cover the rental for a year from the said date. The second rental payment shall be payable on or before the first day of June in the first full calendar year of the said period, and shall cover the part of the said calendar year not covered by the first payment. Subsequent rental payments shall be payable on or before the first day of June of each year thereafter, and shall cover the fee for the calendar year respectively in which they are made.

61. All payments made on account of rental during the survey-construction period (but not the record fee) may, if in the opinion of the Comptroller the survey and construction work has been prosecuted with due diligence, be credited to the licensee for the cancellation of charges as they become due in the operation period.

62. If any part of the amounts due for fees as set forth in clauses 6 and 7 hereof shall, after due notice has been given, be in arrears for sixty days, then and thereupon—

(a.) If the applicant is holding under a permit, the Comptroller may cancel the said permit; or

(b.) If the applicant is holding under a conditional licence, the Lieutenant-Governor in Council may, on the recommendation of the Minister, direct the Comptroller to cancel the said conditional licence.

Operation Period.

63. The amount of the annual rental fee shall, during the operation period, be based on the reasonable station output for the year, which shall be the Comptroller's estimate of the net amount of energy, expressed in horse-power, available for transmission and utilization during the year by a reasonable and diligent use of the privilege. The said estimate shall be based on all data available for the preceding calendar year, and shall be the continued product of the following factors as derived from the said data:—

(a.) The average flow of water in cubic feet per second which it is estimated was or would have been utilized under a reasonable use of the privilege granted. In fixing the said flow, the Comptroller may make use of all data in the possession of the licensee showing the actual quantity of water used for beneficial purposes during the year; and

(1.) If he considers the said use as determined from the said data a reasonable one under all the circumstances, the quantity so used may be taken as a basis of the charge; or

(2.) He may fix the quantity at such percentage of the average flow estimated to have been available at the intake as in his opinion represents a reasonable use of the privilege. In estimating this average available flow at the intake, the effect produced by storage in any and all existing storage-works at or above the site shall be taken into account. In fixing a reasonable percentage of this flow, the Comptroller shall consider the average daily-load factor of the power plant for the period of the year during which the works are operated, and any other facts relevant to the inquiry:

(b.) The average effective head in feet:

(c.) The factor 0.08 (which represents the horse-power produced by one cubic foot of water falling through one foot in one second at 70 per cent. efficiency).

64. The amount of the said annual rental fee per horse-power shall be fixed by the Board as hereinafter directed: Provided that in no case shall the said fee be less than 25 cents nor more than \$1 per horse-power per annum.

65. The Board shall, at least once every five years, appraise the franchise value of a horse-power of station output at each water-power plant operating under a licence in the Province, and shall, upon the basis of the said appraisal, classify the said plants into not less than two or more than five groups, and shall, within the limits prescribed by clause 64 hereof, fix the said annual rental fee per horse-power for the plants in each group, and payments shall be made in accordance therewith: Provided that until the first appraisal of the output of any plant and its classification hereunder are completed, the Board may, within the limits prescribed in the said clause 64, set an arbitrary rental fee per horse-power on the station output of the said plant, and payment shall be made by the licensee in accordance therewith; but any excess or deficiency in such payment over or under the fee as later determined from the said appraisal and classification shall, *pro tanto*, be deducted from or added to the next subsequent payment due from the said licensee after the said appraisal and classification are completed.

66. In appraising the franchise value of a horse-power of station output the Board shall consider the natural advantages of the site for the production

and marketing of power in comparison with that of fuel- or other water-power plants in the Province, and shall compare the cost of producing and marketing power by the use of the water-power plant under consideration with that of producing and marketing power by the use of fuel- or other water-power plants. To this end account shall be taken in either case of—

(a.) Interest on the fixed charges, which shall include the cost of an entire plant and works:

(b.) Maintenance and depreciation:

(c.) Labour and administration at the works:

(d.) Loss caused by irregularity of stream-flow and necessity of supplementing the water-power by stream or other form of power:

(e.) Cost of fuel:

(f.) Length of primary transmission:

(g.) The market for power:

(h.) Any other factors relevant to the inquiry.

67. The first payment of fees to apply on rental during the operation period shall be payable on the first day of June in the first full calendar year of the said period, and shall cover the rental for the said calendar year and for such part of the preceding calendar year as falls within the said period. Subsequent rental payments shall be payable annually thereafter, and shall each cover the fee for the calendar year respectively in which they are made.

68. If any of the amounts due for the said fees shall, after due notice has been given, be in arrears for more than one year, then and thereupon the Lieutenant-Governor in Council may, on the recommendation of the Minister, direct the Comptroller to cancel the conditional or final licence, as the case may be.

PART VI.—HEADGATES, STRUCTURES, AND THE MEASUREMENT OF WATER.

69. Every licensee diverting water into any ditch, canal, pipe-line, flume, or other conduit shall construct and maintain to the satisfaction of the Engineer of the water district and of the Comptroller—

(a.) A substantial headgate at the point where the water is diverted, of such construction that it can be locked and kept closed at the direction of the Engineer of the water district:

(b.) Suitable flumes, weirs, or other measuring-devices at such points as may be necessary for the purpose of assisting the Engineer of the water district in determining the amount of water that is diverted from the stream or taken from the said ditch or canal by the various users.

If any such licensee refuses or neglects to commence the construction of such headgates, flumes, weirs, or other measuring-devices within ten days after notice to do so by the Engineer of the water district or the Comptroller, or to prosecute the said construction diligently or to maintain the same satisfactorily, the said Engineer or Comptroller may—

(c.) Construct or cause to be constructed and maintained such headgates, flumes, weirs, or other diversion or measuring-devices as may in his opinion be necessary; and all costs and charges in connection therewith shall be paid by the licensee, and if not so paid shall be a charge on the land to which the water licence or licences are appurtenant, and may, in addition to all other remedies, be recovered by action in any Court of competent jurisdiction; or

(d.) Close or direct to be closed the said ditch or canal to the passage of the water, and the same shall not be opened or any water diverted until the requirements of the said Engineer or Comptroller, as the case may be, are complied with; and if the said licensee further refuses to comply with the said requirements, the Comptroller may recommend to the Minister the cancellation of the licence as provided in subclause (h) of clause (6) of section 289A of the Act.

70. Every licensee storing or penning back water in a reservoir located across or upon the bed of a natural stream shall construct and maintain rating-flumes, weirs, or other measuring-devices, according to plans approved by the Comptroller, at a point on the stream not exceeding 600 feet below the lower end of such reservoir and at a point on each and every stream or source of supply discharging into such reservoir (the points of location to be likewise

subject to the approval of the Comptroller) for the purpose of assisting the Comptroller or the Engineer of the water district in determining the amount of water stored in such reservoir, and the amount of water to which other licensees who have a right to divert water from the same stream are entitled.

If any licensee storing or penning back water as aforesaid neglects or refuses to commence the construction of the said rating-flumes, weirs, or other measuring-devices within ten days after notice to do so by the Engineer of the water district or the Comptroller, or to prosecute the said construction diligently or to maintain the same satisfactorily, the Comptroller or the Engineer of the water district may—

(a.) Construct or cause to be constructed or maintained the said rating-flumes, weirs, or other measuring-devices; and all costs and charges in connection therewith shall be paid by the licensee, and if not so paid shall be a charge upon the land to which the water licence or licences are appurtenant, and may, in addition to all other remedies, be recovered by action in any Court of competent jurisdiction; or

(b.) Open the sluice-gate or outlet of the said reservoir and permit such quantity of stored water to flow down the stream for the use of other licensees as he may deem proper until the said licensee constructs or maintains the said rating-flumes, weirs, or other measuring-devices; and if the licensee further refuses to comply with the said requirements, the Comptroller may recommend to the Minister the cancellation of the licence as provided in subclause (h) of clause (6) of section 289A of the Act.

71. Proper provision shall be made by every licensee to the satisfaction of the Comptroller—

(a.) For the passage of logs and timber down the stream or other waterway affected by the works:

(b.) For the erection and maintenance by the licensee of a durable and efficient fishway in the stream or other waterway affected by the works:

72. For the purpose of ascertaining the quantity of water used or of power developed or capable of being developed from the amount of water granted under any licence, or for the collection of other data for the purpose of carrying out these regulations, the Comptroller, the Board, or any engineer appointed by the Minister for that purpose shall have free access to all parts of the works, and to all books, plans, or records in connection therewith, and may make measurements, take observations, and do such other things as they may consider necessary or expedient for such purpose.

73. Every permittee or licensee for municipal or power purposes shall install and maintain in good operation, condition, at such places and in such manner as shall be approved by the Comptroller, accurate meters, measuring-weirs, gauges, or other devices approved by the Comptroller and adequate for the determination of the amount of water used or electric energy generated (if any) in the operation of the works; and of the flow of the stream or streams from which the water is diverted or is to be diverted; and of the amounts of water held in and drawn from storage; to keep accurate and sufficient records of the foregoing determinations to the satisfaction of the Comptroller; and to make a return prior to the first day of March of each year, under oath, of such of the records of measurements for the year ending on December 31st preceding, made by or in the possession of the permittee, as may be required by the Comptroller.

PART VII.—FILING OF PLANS, OFFICE PROCEDURE, AND FEES.

74. An application under which the development of 100 horse-power or less is contemplated, or the irrigation of 640 acres of land or less, or the use of water for any other purpose in an amount of 100,000 gallons per day or less shall be accompanied by a map of the project in duplicate, showing—

(a.) The ownership of all lands likely to be affected by the project:

(b.) The proposed point or points of diversion of the water.

(c.) The proposed location of ditches, flumes, conduits, and dams:

(d.) If a power project, the proposed location of the power-house and the point of return of the water:
